New York Stock Market

New York, March 31.—The stock market to-day further disclosed its harrow limitations. The traders operated on one side of the market for a time and then shifted to the other side, while real buyers and sellers apparently refrained from taking any action at all. The course of syents may be assumed to be insufficiently defined to Juduce speculative operations.

Great uncertainty exists as to the significance of the decision of the Supreme Court not to accompany the body of the late Justice Brewer to its resting place in Kansas. The desire to evoid delay in the public business, expressed by the Chief Justice in explanation, gives rise to a supposition in the financial district that the American Tobacco case may be decided on Monday. The subject was much discussed with a prepressive effect on activity.

Another matter receiving much attention was the number of railrads following the example of the Fennayl-vania by advancing wages of emplayes. The action was of mixed offect on speculative sentiment.

The large increases in expense of operation involved received grave con-

ments.

The resistance encountered during the declines in prices left an impression at the end of the day of a support in the market such as it has lacked for several days past.

Bonds were easy. Total sales, par value, \$2.195.000. United States bonds were unchanged on call.

Total sales of stocks for the day were 545,900 shares.

COTTON MARKETS.

COTTON MARKETS.

New York, March 31.—The cotton market was vary nervous and unsettled to-day. An early decline on Texas rain news was followed by a partial recovery, but the market weakened in the afterneon under rumors that the buils were abandoning the May deal, and the close was weak at the lowest point of the day, or a net decline of 1292; points. The market opened easy at Bn advance of 3 points on March, but keinerally 1888 points lower in responsa to lower cables thm due and scattering liquidation, attributed to private roports indicating that the rains in Texas had been pretty soneral with the pricipitation ranging from a trace up to nearly two inches. Official weather reports, however, indicated that the shower or rains were passing out of the State in a southerly direction with clear weather centring in the Northwest, and shortly after the opening prices railed on support by New Orleans and Western interests and overing by shorts. The old crop soid up to within a point or two of last night's finals on this demand, while the new crop advanced to within 5 or 6 points of yesterday's close, but a little later the whole list weakened under rather general liquidation, which appeared to reflect some change in the near month's situation, and which was accompanied by reports that there had been a settlement between Southern buils and a large spot house. May contracts soid off to 1848 or 18 points net lower, while October declined to 1207, or 22 points under the closing of last night.

Receipts at the ports to-day were 22.821 bales against 15.11 last year. For the week 85.00 bales against 16.1. Siz last week and 9.35e last year. To-day's receipts at New Orleans were 6.55 bales against 1.51 last year, and a closed with year.
